TEXTBOOK: The Economics of Money, Banking, and Financial Markets
Mishkin, Frederick, 12th edition. (E-book included in course)

COURSE DESCRIPTION:
This course examines the characteristics and functions of money in
the modern economy, monetary theory and policy, and financial
institutions. In addition, the course will examine international
financial markets, exchange rates, and the financial derivatives
market. PREREQUISITE: ECON 2101

COURSE OBJECTIVE:
This course will help students to understand financial markets both in the United States
and abroad. It provides a unifying, analytic framework that uses a few basic economic
principles to organize thinking about the structure of financial markets, the foreign
exchange markets, financial institution management, and the role of monetary policy in
the economy.

The Belk College of Business strives to create an inclusive academic climate in which the
dignity of all individuals is respected and maintained. Therefore, we celebrate diversity
that includes, but is not limited to ability/disability, age, culture, ethnicity, gender,
language, race, religion, sexual orientation, and socio-economic status.
